

A WONDERFUL SUMMER

Today is my last day and when I look back to the beginning of the summer course I ask myself how I could have felt so homesick! I feel as if my family is here in Sherborne now. I know everything and everyone and I don't want to go home. Here is the perfect balance between improving your English and having fun and free time with your friends. When I look back on the last six weeks and how many friends I have found I can see that this was the most incredible journey in my life. (And of course I'm coming back next year!).

When I came here, I was very nervous because this is my first trip to England. I worried about friends, food, lessons...and so on. But I didn't have to worry so much. Many people talked to me or smiled at me. It made me happy.

But I couldn't talk to other people because I thought that I couldn't speak English well. Then, I understood that I don't have to speak perfect English so I tried to speak English more and more and study harder to make more foreign friends. It was difficult for me to express my feelings, but I think my English got better. I talked with my new friends about our countries and I found out a lot of new things. I think this trip might be the most important trip for me in my life. It was such fun!

Aoi Japan

Every day I woke up feeling that something exciting is going to happen. All the lessons, teacher, staffs, pupils and absolutely everything were unbelievable. I think it is the best international summer college. I want to say 'thank you' for everything you did, your kindness, entertainment we've had and especially for the food, it was really delicious. I'm looking forward to coming here next year.

A USEFUL INVENTION

Our invention is a make-up kit attached to a steering wheel. It contains bright eye shadows, black mascara, lipstick, a hair brush, a mirror, face powder and a compartment for jewellery. It allows women to put on their make up while they are in a traffic jam. In fact, it activates only when the car stops and it closes automatically when the car starts moving so it discourages women from using it when driving. It enables busy women to save time by putting on their make-up on their way to work.

MY FAVOURITE CLASS

Some teachers teach us incredible lessons. I really enjoyed these eight weeks and I hope I can come back next year. Thanks Sherborne for giving me so many different memories.

Sam Taiwan

In Biology I learned a lot of new vocabulary and we did many experiments and we looked at a real heart, lungs, windpipe, brain and head. There were many practical things to do.

Julia Germany

Art because it's so cool!!!

Timo Austria

I liked English. The teacher was funny and I studied and laughed at the same time.

GREAT DAYS OUT

Last Sunday, we went to Longleat, It was great. We arrived there at about 11 o'clock and the safari started. First of all, we saw the giraffes, then the deer, elephants, tigers and lions. After the safari we went to Longleat Park, where we went in the labyrinth, it was amazing. Then we went to the zoo where I touched a millipede and a snake, it was fantastic.

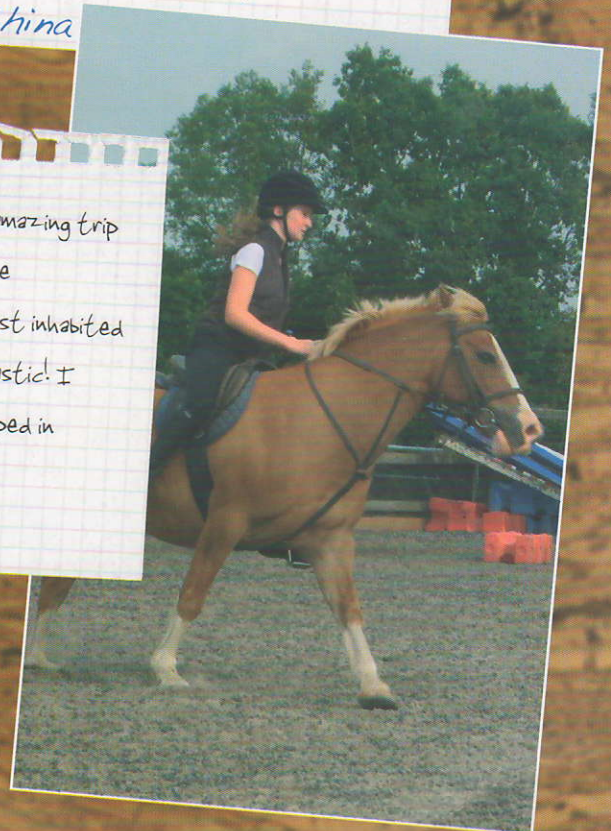

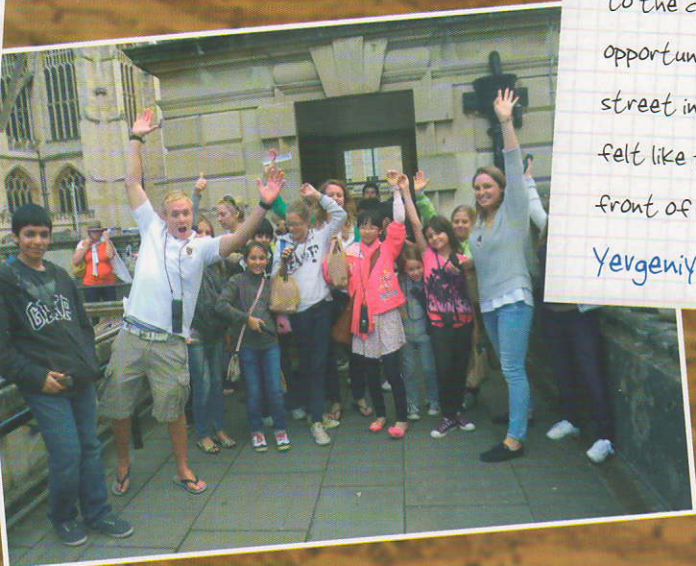

Michele Italy

We all got a chance to visit Bath, including amazing places of interest and fantastic views. I loved the Roman Baths, a perfect mixture of modern and classic. How beautiful! Later I went to the hills around the city with my friend where the grassland and the strong wind really reminded me of the steppe in my hometown. There we saw the whole of Bath. It's a fantastic city with great culture and nature.

James China

Two weeks ago we went on an amazing trip to the city of wells. We had the opportunity to walk in the oldest inhabited street in Europe. It was fantastic! I felt like the whole history galloped in front of my eyes.

GOOD MEMORIES

Today was the best day of my summer course at Sherborne because I went fishing. We caught 13 small fish and then we went to catch big fish. It's different from catching small fish, it's more difficult. But I still caught a big, big, big fish!!! It was the biggest fish today! I'm a fishing queen!

Thank you!

It's a knockout was the most memorable event at the college. All the students were divided into different teams and each team had its own colour. We dressed up and painted our faces and all the houses had their own slogans and all shouted and yelled at each other at the top of their voices. No one wanted to be defeated.

The games were so amazing: there were different ball games which demanded a lot of team work; water games where you could just relax and enjoy it and some running games which made us sweat a lot.

The event finished with laughter and excitement and, whatever the results, all of us had a wonderful afternoon.

Nan China

I found sailing amazing today. It was my first time and it's really enjoyable and fun. I really enjoy living in Sherborne and I'll never forget this beautiful place!

NOW AND THEN

I used to be a dove
But now I'm an eagle
I used to be an invention
But now I'm an inventor
I used to be a small town
But now I'm the world
I used to know a lot
But now I understand that I don't

Ella Russia

I used to be a dreamer
But now I am part of the dream
I used to be just someone
But now I am me
I used to be just a player
But now I am the winner
I used to be an us
But now I am an individual
